00-03

TO: All Architects, Builders, Contractors, Developers, Engineers and Surveyors Practicing in Fairfax County

FROM: County Briefing on Environmental Protection Requirements for Land Development Projects

The purpose of this letter is to notify you that the Office of Site Development Services (OSDS) will be conducting a briefing to describe our inspection process improvements, regulatory requirements, and performance expectations regarding erosion and sediment controls and tree preservation measures.

OSDS has implemented organizational improvements and is in the process of hiring additional staff to ensure that all development sites with land-disturbing activities regulated by the County are inspected in conformance with the applicable erosion and sediment control codes and regulations. We recognize the need to communicate performance expectations regarding erosion and sediment control and tree preservation requirements with the land development community as we enhance the efficiency and quality of our inspection services. Thus, staff of OSDS will conduct a briefing on July 13, 2000, from 1:30 – 4:30 p.m. in the Fairfax County Government Center Board of Supervisors auditorium, 12000 Government Center Parkway, Fairfax, Virginia (see the enclosed notice). There is no cost to attend the briefing. It is requested that you contact the Training Center staff at (703) 324-1820 by July 7, 2000, if you plan to attend so that staff can ensure that an adequate number of hand-out materials are available. Your attendance is strongly encouraged and we look forward to your input and participation at the briefing.

Sincerely,
